

EVALUARE

1. Relatați, în 10 enunțuri dezvoltate, despre *rolul comunicării eficiente în diverse situații și circumstanțe.*

2. Traduceți următoarele fraze în limba română:

1. The communicative function of language presupposes that without language any form of human interaction becomes impossible.
2. The ability to communicate means nothing other than the ability to share different kinds of experiences with others.
3. The word “communication” is often used not in a strictly terminological sense, but to denote the process of exchanging thoughts, information, and even emotions between interlocutors.
4. Language is a specific means of regulating human behavior.
5. The way we speak gives the other communicator an idea of who we are.
6. Undoubtedly, scientific and technological progress has significantly changed people’s lifestyles, expanding their communicative possibilities.
7. Any personal influence on the addressee, any act of persuasion, takes place through the implementation of a specific communicative strategy effectively applied in a real communicative act.
8. Many people fail to make a good impression simply because they do not know how to listen attentively.
9. In nonverbal communication, any symbols other than words are used.
10. In the Internet era, human communication creates more and more linguistic worlds and employs the entire arsenal of linguistic cooperation within them.
